NOTIFICATIONS.—FORESTS.

Simla, the 21st September 1875.

No. 1059.—The following rules made under Act VII of 1865 have been confirmed by the Governor General in Council, and are, in accordance with Section 6 of that Act, published in the *Gazette of India*:—

Rules for the management and preservation of the Government Forests in the North-Western Provinces.

I.—Nothing in the following rules shall be held to abridge or affect any existing rights of individuals or communities in Government forests.

II.—Every Government forest, when not sufficiently demarcated by roads, streams, or other existing natural or artificial boundary marks, shall be demarcated with such marks as the Conservator of Forests may direct.

III.—The Conservator of Forests may, with the previous sanction of the Collector, or other chief Revenue Officer of the district, close any road or pathway traversing any Government forest. Provided always that no legal public right of way is infringed by such closing, and that no legal private right of way is abridged or affected, except after due compensation and settlement according to the law for the time being in force regarding the expropriation of such rights.

IV.—The following acts are prohibited in Government forests:—

(1) Voluntarily or negligently setting fire to the forests.

(2) Felling, girdling, lopping, burning, barking, stripping off leaves, tapping for resin, or otherwise injuring any trees, shrubs or bamboos, otherwise than with lawful permission under these rules.

(3) Cultivation, without the permission, in writing, of the Conservator of Forests.

(4) Grazing or pasturing of cattle, elephants, or pigs, except with lawful permission under these rules.

(5) Cutting grass, collecting fruits, honey, wax, bark, or any kind of forest produce without lawful permission under these rules.

V.—Whenever any legal rights to timber, grazing, or other forest produce exist in any Government forest, such rights shall in all cases be ascertained and

fully recorded by the Revenue authorities of districts, and a copy of such record shall be deposited for reference in the forest office of the division in which the forest is situated.

VI.—It shall be lawful for the Local Government to close any portions of the Government forests, and to notify such portions as closed forests. The boundaries of such closed forests shall be demarcated by such marks as the Government may direct.

VII.—In closed forests all trespass by men, cattle, or elephants off the authorised roads and pathways is prohibited.

VIII.—It shall be lawful for the Local Government to grant in any Government forest such privileges as may be consistent with the due maintenance of the forest. Provided always that the exercise of any privilege under this rule shall be for the use of the person entitled thereto, and not for the purposes of export or merchandise.

IX.—No privileges granted under the last preceding rule shall be exercised in any closed forest.

X.—All timber found adrift within such limits and on such rivers, as may from time to time be notified by the Local Government, may be collected and taken charge of by any forest officer. The collection of such timber within these limits by any person other than a forest officer is prohibited. All timber collected by the forest officer as aforesaid shall be brought to or stored at such stations as the Conservator of Forests shall from time to time publicly notify and shall be dealt with as provided in the following rules:

XI.—Notices shall be published every second month at the three tahsil or police offices nearest the place of storing, stating the number and description of pieces of drift and unclaimed timber brought in under Rule X during the two months preceding.

XII.—All claims to drift timber shall be decided by the Conservator of Forests, or such other forest officer as he may authorise in that behalf. Provided that if two or more persons are claimants to the same timber, the Conservator or other officer as aforesaid may decline to decide the case, and refer the parties to the Civil Court.

Timber, wood, or bamboos awarded to claimants must be redeemed by the payment of all expenses incurred on the collection, landing, and protection thereof. If the expenses are not paid and the timber redeemed within one month from the date of issue of a written notice by the forest officer calling on the owner to redeem the same, the forest officer shall be entitled to sell the wood; and after deducting the sum due for such expenses, shall pay any balance that may remain to the owner of the timber sold.

XIII.—For every breach of these rules for which the penalty of confiscation is not provided by the Act, the offender shall be liable, on conviction before the Magistrate having jurisdiction in the case, to fine not exceeding Rs. 500, or in default of payment, to such imprisonment as is provided in Section 67 of the Indian Penal Code.

MY LORD,

PARA. 1. I have to convey to you formally the information which Your Excellency has already received by telegraph, that it is the intention of His Royal Highness the Prince of Wales to visit the dominions of Her Majesty in the East. I am assured of the pleasure with which Your Excellency will welcome His Royal Highness.

2. Your Excellency will receive in due course intimation of the dates fixed for His Royal Highness' departure from England and arrival in India, and of the numbers of the suite by which he will be attended.

3. Your Excellency as Viceroy will represent Her Majesty in receiving His Royal Highness with all the honors befitting his exalted rank, and Her Majesty's Government feel assured of the earnest and loyal desire of Your Excellency and of all Officers under your control to omit no circumstance which can contribute to His Royal Highness' comfort in visiting, as far as time allows, all that is most interesting in those provinces of the British Empire in the East which are under your control.

4. The sojourn which His Royal Highness purposes to make will only be sufficient to bring before him a small portion of the vast multitudes of various races who live directly under English rule. But he will doubtless have presented to him many of the most eminent Officers, Civil and Military, European and Native, who under Your Excellency, bear rule among them, and he will see some of the most important divisions of that great army to which the defence of the Empire is confided, and in which His Royal Highness now bears the highest rank.

5. His Royal Highness will have the opportunity, which he will highly value, of personally conveying to the Chiefs and Princes who rule in India under the paramount protection of the Queen of England the assurance of those gracious sentiments which have ever been entertained towards them by His Royal House.

6. Her Majesty has been graciously pleased to mark her sense of the importance and dignity of the occasion by empowering His Royal Highness to hold a special investiture of the Order of the Star of India, of which Your Excellency is Grand Master.

7. At this and all other ceremonials Her Majesty's Government feel assured that the supreme authority with which Your Excellency is invested as Her Majesty's Representative will enable you to show how highly you estimate the proof of Her Majesty's good will and Her confidence in the loyalty of Her Indian subjects which are afforded by Her sanctioning the visit of the Prince to India.

I have &c.,

No. 927 *of* 1875.—A question having been raised whether the benefits of pension from the fund formerly known as "Lord Clive's Fund" would be barred to the widow of an officer who had taken up a life assurance for the benefit of his children, the policy being handed over to trustees, in order to remove all doubt, it is notified that the Secretary of State for India has ruled that the money accruing to an officer's estate from a life assurance, though it may be placed in trust for a specific purpose, virtually forms part of personal estate, and is to be treated accordingly.

A declaration in the following form should in future accompany all applications for admission to the benefits of Lord Clive's Fund, in lieu of that published in G. G. O. No. 877 of 16th September 1862:—

FORM OF DECLARATION.

; and that my said husband did not to my knowledge at any period in any way dispose of his estate, or any part thereof, in order that I might be enabled to claim the regulated amount of pension from Lord Clive's Fund; and I also declare that I do not myself possess or enjoy any property, or any such interest in any property, as either alone or together with the real and personal estate of which my late husband died seised or possessed, and any such insurance money as aforesaid, will amount to the aforesaid sum of ; and I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the Session of Parliament of the fifth and sixth years of the reign of His late Majesty King William the Fourth, intituled "An Act to repeal an Act of the present Session of Parliament, intituled An Act for the more effectual abolition of Oaths and Affirmations taken and made in various Departments of the State, and to substitute Declarations in lieu thereof, and for the more entire suppression of voluntary and extra-judicial Oaths and Affidavits, and to make other provisions for the abolition of unnecessary Oaths."

POLITICAL.

The 6th October 1875.

No. 2707*P.*

Extract from the Proceedings of the Government of India in the Foreign Department.

Read again Resolution of this Department, No. 2005, dated 12th July 1875.

OBSERVATIONS.—The Governor General in Council observes that in paragraphs 12 and 13 of the above quoted Resolution it was stated that after Sir Douglas Forsyth had concluded with the Burmese Government the Agreement on the subject of Western Karcunee, an informal but friendly communication was made to him from the Burmese Foreign Minister indicating disinclination on the part of the Court of Ava to assent to an escort of British troops accompanying a fresh Mission to China. His Excellency in Council entertained a confident expectation that the Burmese Government would so receive such further communications on the subject as might be addressed to them that the friendship between the two Governments would be maintained.

His Excellency in Council has now received intimation from the Resident at Mandalay that the Government of the King of Burmah has consented that should another Mission be sent to China, it shall be accompanied by an escort of British troops sufficient for the purpose of protecting it from attack or insult.

ORDER.—Ordered, that the following extract from a letter addressed by His Excellency the Kin Woon Mengye, Minister of Foreign Affairs at the Court of Ava, to the British Resident at Mandalay, be published in the *Gazette of India* for general information :—

"In regard to that portion of the letter which states that until the result of the investigation is known His Excellency the Viceroy is unable to say whether or not he will send a fresh expedition, but that he desires his thanks may be communicated to His Majesty for having offered to Captain Strover to send the Mission back to China if arrangements can be made, and directs that the Burmese Government may be informed that should a Mission be sent again to China, it will be necessary that a sufficient escort of British troops be sent with it to protect it from attack and insult,—and also with reference to the letter dated 14th June 1875 from the Envoy, in which it is stated that the Chinese Government have issued fresh passports for a new Mission from Burmah to China, or *vice versâ*, if the Viceroy sees fit to send one,—I have the honor to say that should such another Mission be sent to the Chinese territory, it may be accompanied by an escort of British troops sufficient for the purposes stated [in the letter]; and I request that, in accordance with the existing friendship [between the two Governments], you will inform me of the strength of the escort previous to the despatch of the Mission.

Republished in G. G. O. No. 560 of 1873.

Read—Endorsement of the Military Department, No. 1394 (Funds / Indian Service), dated 24th March 1875, on the subject of the ad interim rates of subscription to the Indian Service Family Pension Fund which should be paid by Native members of the Covenanted Medical Service until the adoption of new tables.

RESOLUTION.—In the absence of sufficient statistics of native life no precise rates of subscription can be fixed; but it is believed that Insurance Offices have added five or ten per cent. to their ordinary rates when accepting risks on the lives of natives of India, thus indicating a belief that a lower scale of vitality as well as a greater proportion of unforeseen risk may be applicable to Native than to European life. Extract from the Proceedings of the Government of India in the Department of Revenue, Agriculture, and Commerce.

READ the following correspondence relative to the resumption of the Surveys of Indian seas and coasts:—

Despatch from the Secretary of State No. 7 (Geographical), dated the 30th March 1871, forwarding, for the early consideration of the Government of India, a collection of papers describing the establishments formerly maintained for the survey of Indian seas and the excellent work done by them,—pointing out the disadvantages which had resulted from the total suppression in 1861 of those establishments, and urging the expediency of providing some sufficient substitute for them.

Despatch from the Secretary of State No. 17, dated the 11th July 1873, drawing attention to the despatch of 30th March 1871, No. 7, and forwarding a copy of the observations made by Admiral Richards, Hydrographer to the Admiralty, pointing out the great importance of placing the Marine Surveys in India under the superintendence of one responsible head.

Despatch to the Secretary of State No. 26, dated the 30th June 1873, enquiring in reply to the despatch of 30th March 1871, No. 7, whether there was any prospect of practical effect being given to the arrangement understood to have been made in 1861 with the Admiralty, whereby all future maritime surveys in India were to be undertaken by the Royal Navy and at Imperial expense, and stating that if, notwithstanding that arrangement, the execution of such maritime surveys was in future to devolve on the Indian Government, that Government would take such action in the matter as financial considerations would admit, and suggesting that Commander A. D. Taylor, late Indian Navy, should be temporarily deputed to India to assist in determining what marine surveys were most pressingly required and how any such surveys could be most readily and economically executed.

Despatch from the Secretary of State No. 27 (Geographical), dated the 30th October 1873, sanctioning the proposals of the Government of India and the deputation of Commander Taylor.

Despatch to the Secretary of State No. 17, dated the 1st May 1874, recommending the establishment of a Department for the systematic execution of Marine Surveys under the superintendentship of Commander A. D. Taylor, and submitting a detailed review by that officer of all Admiralty charts of British India and of all existing materials for charts both in India and in England, with a scheme for the correction and completion of these charts, the utilisation of all old materials, and the further prosecution of marine surveys.

Despatch from the Secretary of State No. 12 (Geographical), dated the 16th July 1874, sanctioning the proposals of the Government of India.

Read also—

Despatch from the Secretary of State No. 18 (Geographical), dated the 15th April 1875, forwarding extract from a letter from the Lords Commissioners of the Admiralty, respecting the Royal Navy Officers lent to the Government of India, and notifying the appointment of Mr. R. C. Carrington as Chief Civil Assistant to the Superintendent.

A supplementary memorandum from the Superintendent of Marine Surveys dated the 7th April 1875 on the vessels and establishments required for the Marine Survey Department.

A memorandum dated the 11th May 1875 from the Superintendent of Marine Surveys stating the duties proposed to be undertaken by the Department.

OBSERVATIONS.—Commander Taylor arrived in India on the 22nd December 1873, and prepared—

1*st*.—A careful and complete review of all existing charts or materials for charts (in India or in England) of the coast line from the Pakchan river at the southern extremity of Tenasserim to Sonmiani Bay on the western limit of the Sindh coast, as also of the islands in the Bay of Bengal, the Laccadives, and the Maldives.

2*nd*.—A scheme to supplement and perfect existing charts both by working up materials not yet utilised and by fresh surveys, arranging each project in the order of its importance, and fully detailing for each the method in and agency by which it was to be carried out, the time it would probably occupy, and its probable cost.

2. The whole subject having been fully considered, it was found that in many places the charts of the coasts were more or less defective, and that even where really good charts existed, they had become partially obsolete, owing to the absence of any authority whose duty it was to ascertain and record from time to time the changes effected by nature or by man.

3. The Government of India reported to Her Majesty's Secretary of State for India the results of the consideration which had been given to the subject, and accepted the responsibility of completing and maintaining the charts of the whole coast line of British India from the Pakchan Estuary to Sonmiani Bay, of the Andamans and Nicobars, the Mergui Archipelago, and the Laccadives,—leaving all surveys beyond those limits that might be required to be undertaken by the vessels and surveyors of Her Majesty's Navy at the expense of the Imperial Government. It was pointed out that to perform the work satisfactorily a special agency was required—

1*st*.—To undertake accurate surveys of localities not yet sufficiently surveyed.

2*nd*.—To turn to good account the results of those surveys and of other existing surveys the materials of which had not yet been fully utilised.

3*rd*.—To maintain the accuracy of Indian charts by recording and bringing to notice all changes, in the first instance, of buoys, lights, and the like, and secondly, of the natural configuration of the sea-bord consequent on natural causes.

4. As to the special agency, the following proposals were made:—

That with the view of executing gradually all the more pressing marine surveys and re-surveys, a small survey flotilla should be organised, efficiently manned, and provided with competent surveyors at a total annual cost, inclusive of the salary of a Superintendent of Marine Surveys and of all other charges, not exceeding two lakhs of rupees.

That to supervise the work of this flotilla both in surveying at sea and during part of the year plotting ashore, to superintend the reproduction by photozincography of the surveyors' charts, to maintain a correct record of buoys, lights, and the like, and to transmit to the Hydrographic Office of the Admiralty the earliest information of changes in the position of these, and for the general control of all the work of the Survey, the appointment of a Superintendent of Marine Surveys should be created,—Commander Taylor being nominated for the office.

RESOLUTION.

5. The Secretary of State for India in Council having, in his despatch of the 16th July 1874, No. 12 (Geographical), sanctioned the formation of a Marine Survey Department in accordance with the proposals of the Government of India (subsequently modified by a continuation of that despatch bearing date the 15th April 1875, No. 18), the Governor General in Council has been pleased to direct the issue of the following instructions for the conduct of the duties to be undertaken by the Department.

6. The Department will be under the charge of the Superintendent of Marine Surveys, Commander A. D. Taylor, late Indian Navy, and all officers serving in the Department are under his orders.

7. The officers of the Department, together with their rank and grade, rates of pay, and dates of appointment, are as follow :—

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

Fort William, the 10th November 1875.

No. 20.—The following Statutes are published for general information:—

38 & 39 VICTORIA, CHAPTER 73.

An Act to amend the law relating to the appointment of certain persons who entered the employment of the Home Government of India before the 31st day of December 1874.

[11TH AUGUST 1875.]

Whereas by the sixteenth section of the Act of the twenty-first and twenty-second years of the reign of Her Majesty, chapter one hundred and six, it is provided that after the first formation of the permanent establishment of the Secretary of State for India in Council, the Order of Her Majesty in Council of the twenty-first day of May one thousand eight hundred and fifty-five, or such other regulations as might be from time to time established by Her Majesty for examinations, certificates, probation, or other tests of fitness in relation to appointments to junior situations in the Civil Service, should apply to such appointments on the said establishment:

And whereas it appears that persons have been appointed to junior situations on the said establishment who ought in pursuance of the sixteenth section of the said Act, and the Order in Council and regulations therein referred to, to have obtained previous to their appointment certificates from the Civil Service Commissioners, but through inadvertence on the part of the Secretary of State in Council, and without any default of the persons so appointed, no steps were taken before their appointment to procure for them such certificates.

And whereas it is unjust that the persons so appointed should be deprived of any rewards or advantages which they were led to expect at the time when they entered the said establishment:

Be it therefore enacted &c.:—

Secretary of State for India may make orders as to persons appointed without certificate from Civil Service Commissioners.

1. The Secretary of State for India in Council may, if he thinks fit, at any time before the first day of January one thousand eight hundred and seventy-six, declare by order or warrant that any person who has been appointed to a junior situation on the said establishment without a certificate from the Civil Service Commissioners, after the first formation of the said establishment and before the thirty-first day of December one thousand eight hundred and seventy-four, was so appointed through inadvertence on the part of the Secretary of State for India in Council, and without any default on the part of the person so appointed, and that such person has been found thoroughly capable and efficient in the discharge of his duties; and every person with respect to whom such order or warrant may be issued shall be in the same position as regards his claim to all salaries, superannuation allowances, or gratuities, emoluments, or advantages whatsoever, as he would have been

in if he had obtained previous to his appointment a certificate from the Civil Service Commissioners.

Order to be laid before Parliament.

Any order or warrant made in pursuance of this Act shall be laid before both Houses of Parliament within fourteen days after the meeting thereof if Parliament be sitting, and if Parliament be not sitting, then within fourteen days after the next meeting thereof.

The Secretary of State for India in Council shall cause to be laid before Parliament, not later than the expiration of one month after the commencement of the session in Parliament in the year one thousand eight hundred and seventy-six, a return showing the names of all persons with respect to whom any order or warrant has been issued in pursuance of this section, together with the situations to which they have been appointed.

38 & 39 VICTORIA, CHAPTER 88.

An Act to make provision for giving further powers to the Board of Trade for stopping unseaworthy Ships.

[13TH AUGUST 1875.]

Be it enacted by the Queen's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:

Appointment and powers of officers having authority to detain unseaworthy ships.

1. The Board of Trade may forthwith and from time to time by special order appoint a sufficient number of fit and proper persons, from their own staff or otherwise, to be officers having authority to detain unseaworthy ships, and may from time to time revoke any such appointment.

If any officer so appointed has reason to believe upon inspection or otherwise that any British ship is by reason of the defective condition of her hull, equipments, or machinery, or by reason of overloading or improper loading, unfit to proceed to sea without serious danger to human life, he may order that the ship be detained for the purpose of being surveyed.

Any such order shall have the same effect as if it were an order of the Board of Trade under section twelve of the Merchant Shipping Act, 1873.

For the purpose of ascertaining whether a British ship is fit to proceed to sea, any officer so appointed may go on board the ship and inspect the same, or any part thereof, or any of the machinery, boats, equipments, or other articles on board thereof, not unnecessarily detaining or delaying her from proceeding on her voyage; and any person who wilfully impedes him in the execution of his duty shall be liable to the same penalties, and may be dealt with in the same manner, as if the officer were an inspector appointed by the Board of Trade under the Merchant Shipping Act, 1854.

When any officer so appointed orders a ship to be detained, he shall forthwith report his proceedings to the Board of Trade.

An officer so appointed shall receive such remuneration for his services under this Act as the Treasury from time to time direct, and such remuneration shall be paid out of moneys to be provided by Parliament.

Ship to be detained on complaint of crew.

2. Whenever a complaint is made to the Board of Trade or to any officer so appointed by one-fourth of the seamen belonging to any British ship, that the ship is by reason of the defective condition of her hull, equipments, or machine or by reason of overloading or improper loading, unfit to proceed to sea without serious danger to human life, it shall be the duty of the Board or officer, as the case may be, if the complaint is made within time sufficient for that purpose before the sailing of the ship, without requiring any security for the payment of costs and expenses, to take proper steps for ascertaining whether the ship ought to be detained for the purpose of being surveyed under the Merchant Shipping Act, 1873.

Cargo of grain, &c.

3. From and after the first day of October one thousand eight hundred and seventy-five, no cargo of which more than one-third consists of any kind of grain, corn, rice, paddy, pulse, seeds, nuts, or nut kernels, shall be carried on board any British ship, unless such grain, corn, rice, paddy, pulse, seeds, nuts, or nut kernels be contained in bags, sacks, or barrels, or secured from shifting by boards, bulkheads, or otherwise. This section shall not apply to any grain shipped previous to the first October one thousand eight hundred and seventy-five.

The master of any British ship who shall knowingly allow any cargo or part of a cargo to be shipped therein for carriage contrary to the provisions of this section shall for every such offence incur a penalty not exceeding two hundred pounds.

Penalties on sending unseaworthy ships to sea.

4. Section eleven of "The Merchant Shipping Act, 1871," shall be repealed, and in lieu thereof it shall be enacted:—

(1.) Every person who sends a ship to sea in such unseaworthy state that the life of any person would be likely to be thereby endangered, and the managing owner of any British ship so sent to sea from any port in the United Kingdom, shall be guilty of a misdemeanor, unless he prove that he used all reasonable means to ensure her being sent to sea in a seaworthy state, or prove that her going to sea in such unseaworthy state was, under the circumstances, reasonable and justifiable; and, for the purpose of giving such proof, such person may give evidence in the same manner as any other witness:

(2.) Every person who attempts or is party to any attempt to send to sea any ship in such unseaworthy state that the life of any person would be likely to be thereby endangered, shall be guilty of a misdemeanor, unless he give such proof as aforesaid, and for the purpose of giving such proof such person may give evidence as aforesaid:

(3.) Every master of a British ship who knowingly takes the same to sea in such unseaworthy state that the life of any person would be likely to be thereby endangered shall be guilty of a misdemeanor, unless he prove that her going to sea in such unseaworthy state was, under the circumstances, reasonable and justifiable, and for the purpose of giving such proof such person may give evidence as aforesaid:

(4.) The owner of every British ship shall from time to time register at the custom-house of the port in the United Kingdom at which such ship is registered the name of the managing owner of such ship, and if there be no managing owner, then of the person to whom the management of the ship is entrusted by and on behalf of the owner; and in case the owner fail or neglect to re-

SEPARATE REVENUE.—POST OFFICE.

The 12th November 1875.

No. 2377.—Notice is hereby given that parcels posted in India for transmission to the United Kingdom by the Overland Parcel Post, must not exceed £50 in value. Any parcel which on examination of the declaration at Bombay may be found to exceed this value will, instead of being forwarded by the Overland Parcel Post, be transferred to the Bombay Agency of the Peninsular and Oriental Steam Navigation Company for transmission independently of the Post Office, and subject to such regulations and charges on delivery as may be applicable thereto under the Company's regulations.

(NOTE.—The Company's present charge is an *ad valorem* rate of 2 per cent., which does not include Marine or other Insurance.)

The following detailed rules respecting the exchange of parcels with the United Kingdom and the foreign countries mentioned are to be substituted for the regulations given at pages 53 to 55 of the Indian Postal Guide for 1875 :—

Overland Parcel Post.

(1).—Parcels are received at any Post Office in India under the conditions and rates of charge mentioned below for transmission to the following countries, *viz.* :—

COUNTRY.	Rate of charge per lb. or fraction thereof. Prepayment compulsory.	Remarks respecting special conditions, &c., applicable to particular Countries.
	Annas.	
United Kingdom ...	8	The prepayment carries the parcel as far as London, any additional charge which may become due on account of British custom duty or carriage beyond London being realised from the addressee. The attention of the public is invited to the fact that the British Post Office has no connection with the Overland Parcel Post; all arrangements out of India are made by the Peninsular and Oriental Steam Navigation Company, and enquiries proceeding from the United Kingdom should be addressed to that Company's Office, 122, Leadenhall Street, London, E. C. The British Post Office, however, has consented to exhibit in every Post Office of the United Kingdom a notice containing information on the subject of the Indian Parcel Post. Parcels must not exceed £50 in value. Any parcel which on examination of the declaration at Bombay may be found to exceed this value will, instead of being forwarded by the Overland Parcel Post, be transferred to the Bombay Agency of the P. & O. S. N. Company for transmission independently of the Post Office, and subject to such regulations and charges on delivery as may be applicable thereto under the Company's regulations. (NOTE.—The Company's present charge is an *ad valorem* rate of 2 per cent., which does not include Marine or other Insurance.)
Germany ...	8	The prepayment carries the parcel to destination. Should any custom duty become due, the amount will be charged on delivery. See also Rule 9 respecting compensation for damage or loss.
Denmark ...	8	The prepayment carries the parcel to the limit of German conveyance, a separate charge being made on delivery for conveyance beyond the German frontier, as well as for custom duty, should any become due. See also Rule 9 respecting compensation for damage or loss.
Sweden ... Norway ... Switzerland ...	8	The prepayment carries the parcel to the limit of German conveyance, a separate charge being made on delivery for conveyance beyond the German frontier, as well as for custom duty, should any become due. *From Rule* 3 *it will be seen that there must be also a second or duplicate declaration of contents and value.* See also Rule 9 respecting compensation for damage or loss.
France ... The Netherlands (Holland). Belgium ...	8	The prepayment carries the parcel to the limit of German conveyance, a separate charge being made on delivery for conveyance beyond the German frontier, as well as for custom duty, should any become due. *From Rule* 3 *it will be seen that there must be also a second or duplicate declaration of contents and value, and that the second or duplicate declaration should contain a statement of the weight (lbs. and ozs. or tolas) of the contents, and should, if possible, be written in the French language.* See also Rule 9 respecting compensation for damage or loss.

(2).—Every parcel should be securely packed in a closed cover or case, and should bear the name and address of the person in the United Kingdom or foreign country for whom it is intended.

N. B.—The public are specially warned against the use of flimsy covers for articles transmitted by the Parcel Post. Heavy articles are sometimes sent with only paper covering insecurely tied with string: friction in transit detaches this cover, and damage and loss ensue. A covering of stout cloth or wax cloth, sewn at the edges, is recommended; but if the contents are liable to suffer from pressure, boxes of wood or tin should be used.

(3).—Every parcel should be accompanied by a separate paper headed with the address of the parcel and containing a *declaration of its contents and value* under the signature of the sender. Below the signature the address of the sender should be given.

For the parcels addressed to—

The United Kingdom ...	Only one declaration as above described is required.
Germany	
Denmark	
Sweden	A second or duplicate declaration is also required.
Norway	
Switzerland... ...	
France	A second or duplicate declaration is also required, and the sender is requested to enter in the declaration a statement of the weight (lbs. and ozs. or tolas) of the contents, and to write the second or duplicate declaration, if possible, *in the French language*. Should he be unable to do so, the Bombay Post Office will attach to the second or duplicate English declaration a French rendering thereof, but the sender is warned of the delay which may result from this.
The Netherlands (Holland)	
Belgium	

It is not deemed necessary to require exact adherence to any particular form of declaration, but the following specimen form may be useful to the senders of parcels:—

Specimen form of declaration.

(Sd.) A. R. ROBINSON,
Amritsar.

N. B.—Declarations for parcels intended for France, the Netherlands or Belgium should, in addition to the above, contain a statement of the weight (lbs. and ozs. or tolas) of the contents.

(4).—The parcel so addressed and the separate paper or papers above referred to should then be enclosed in a *substantial outer cover*. This outer cover should be superscribed and addressed as follows:—

Overland Parcel Post.

To
The Post Master, Bombay.

(5).—The parcel so made up must be *fully prepaid by means of postage stamps at the rate of* 8 *annas* per lb. (40 tolas) or fraction of a lb., care being taken that the stamps adhere firmly to the cover.

(6).—The parcel so made up must not exceed 50lbs. (25 seers) in weight, or 2 feet in length by 1 foot in breadth or depth. It will be received at any Post Office at the hours fixed for the receipt of ordinary banghy parcels, the usual receipt being given to the sender without reference to the mode of packing prescribed in the case of inland parcels for which receipts are claimed.

(7).—On arrival at Bombay the Post Master will take off the outer covering, and forward the inside parcel and the accompanying declaration or declarations to the country of inside address.

(8).—It is forbidden to send in these parcels opium or any liquid or any substance or material of a dangerous, damaging, or offensive kind.

(9).—In the case of parcels for or from Germany and the foreign countries served through Germany, compensation will be given by the responsible Post Office to the sender for loss or damage sustained in transit (cases of *sea risk* or of *vis major* or of the *own negligence of the sender* in respect of packing or otherwise excepted). Such compensation will in no case exceed 1½ rupee for each lb. weight or fraction thereof in respect of parcels forwarded from India, and 3 marks for each 500 grammes or fraction thereof in respect of parcels from Germany. Should the sender desire it, the compensation will be paid to the addressee instead of to himself.

R. B. CHAPMAN,
Secretary to the Govt. of India.

DEPARTMENT OF REVENUE, AGRICULTURE AND COMMERCE.

NOTIFICATIONS.—CUSTOMS AND SALT.

Nos. 379-381.

Extract from the Proceedings of the Government of India in the Department of Revenue, Agriculture, and Commerce, dated Calcutta, the 18*th November* 1875.

READ—

Despatch from Her Majesty's Secretary of State for India, No. 8 (Separate Revenue), dated the 29th July 1875, desiring an enquiry into the merits of the existing system by which the salt revenue is raised in the Madras Presidency under a Government monopoly and the expediency or otherwise of replacing it by altered arrangements, together with other correspondence on the subject.

OBSERVATIONS.

HIS EXCELLENCY the Governor General in Council observes that the question of substituting an excise for the existing monopoly system has already been disposed of as regards the two western districts of Madras. As regards the expediency of effecting a similar change of system in the rest of that presidency, the information available is too imperfect to permit as yet of any definite conclusion being arrived at.

2. Looking to the serious importance of the whole subject, economically, fiscally and socially, His Excellency has decided, after communication with the Government of Madras and with their cordial concurrence, to appoint a Commission to investigate and report thereon. Accordingly, His Excellency the Governor General in Council

President.
C. Pritchard, Esq., Commissioner of Customs, Bombay.
Members.
J. Geoghegan, Esq., Secretary to the Board of Revenue, Bengal.
H. E. Stokes, Esq., Secretary to the Board of Revenue, Madras.
R. M. Adams, Esq., Deputy Commissioner, Inland Customs Service.
Venkasawmy Row, Deputy Collector, Madras.
Secretary.
H. A. Willock, Esq., Acting Senior Assistant, Vizagapatam.

is pleased to nominate the gentlemen noted on the margin to be a Commission for this purpose.

3. The following questions, among others, will more specially engage the attention of the Commission:—

I.—What is the quality and composition of the salt produced at the various works and sold by Government wholesale and by the dealers retail in different parts of the presidency?

II.—Are there any grounds for supposing that the people would prefer, or appreciate, a better quality of salt than that now supplied to them? Is it anywhere the practice to re-dissolve and evaporate the Government salt in view to obtaining a purer article for consumption? Is it anywhere the practice for the wholesale purchasers of and dealers in Government salt to adulterate it before allowing it to pass into the consumer's hands? Upon this subject it will be interesting to ascertain if any Bombay salt has been introduced into the Presidency of Madras by land since the opening of the railway.

III.—What is the actual cost to Government of the monopoly salt, including under cost all expenditure or loss, actual or constructive, on account of or connected with the salt, that would be avoidable were the entire salt supply furnished under a self-supporting* system of excise, or imported by sea, made to pay duty before leaving bond and left thereafter free from interference?

* *i. e.*, a system under which the licensed manufacturer defrays all expenditure which Government incurs to secure itself against any violation or evasion by the manufacturer or his servants of the excise law and rules.

IV.—What is the actual retail selling price of monopoly salt (adulterated or not, as the case may be) in town and village bazaars in different portions of the presidency; and if in any locality this very materially exceeds the Government monopoly price, what are the items that compose the excess? The Commission should collect information regarding the distribution of the salt, the cost of carriage to different parts of the Presidency, and the amount of such salt which is exported to other parts of British India and to Native States; and give their opinion as to the average annual consumption of salt per head in the Madras Presidency.

V.—Is the system under which Government now obtains its salt in any respect needlessly costly? What is the average percentage of wastage—*first*, between the time of manufacture and the taking over the salt by Government, and *second*, between this latter and the final sale by Government?

VI.—What is the extent and value for purposes other than salt manufacture of the whole of the land in the presidency now occupied by open salt works?

VII.—Are there any, and if so what, practical difficulties attendant on substituting a system of excise for the present monopoly?

VIII.—What would be the probable result—*first*, as regards the cost to the consumer, *second*, as regards the net revenue to Government—of substituting an excise for the present monopoly?

IX.—The Commission will also examine and report on the cost o manufacturing salt in Pooree and other salt works in Orissa which border upon the Madras Presidency.

ORDER.—Ordered, that a copy of this Resolution be forwarded to the Governments of Madras, Bombay and Bengal, for information and guidance, and that this Resolution be published for general information.
